Signature of Property Owner:	Date:

IMPORTANT INFORMATION

In an effort to track the effectiveness of hunting in the City, we are asking hunters to voluntarily report the number of deer killed in the City of Avon. The Department of Natural Resources does not track deer killed by specific municipality with their registration process. Please take the time to call us during the hunting season to report the number of deer taken. Simply call 440-934-1234 and speak with a police dispatcher. The only information we need for our analysis purposes is the date, location, and tag number placed on the deer carcass.
