Michael Farmer, Service Director

As per our conversation this morning, I propose to construct your 150 lineal feet retaining wall on Jaycox Road as I did on the last stretch in 2008 for \$75,000.00. If I do the entire stretch totaling 450 lineal feet, I will do the entire project at the 2008 price of \$65,000.00 per 150 lineal feet for a total of \$195,000.00. This is a savings of \$30,000.00 for the 450 lineal feet.

I will install the retaining wall at the same height as before, back fill with hard material and topped off with the quarry mix as I did previously to promote vegetation growth.

I would suggest you repair the entire 450 lineal feet because as we inspected the area this morning it is already moving and will soon look like the 150 foot area we were discussing.
