Attention Avon Residents & Businesses

Upcoming Nagel Road Construction

Avon, OH

On or about the week of April 21, 2016, the City of Avon has asked Sitetech to modify the current construction work zone to ONE WAY TRAFFIC heading SOUTHBOUND only. All other traffic will observe and follow the detours displayed on various roads. This zone will remain in place until further notice.

An eastern extension of Middleton Road was constructed in 2015 and currently serves as the entranceway to the new Levin Furniture store. This entrance will remain open at all times but customers existing off Middleton Road will only be allowed to head SOUTHBOUND only.

The current work will continue for approximately 120 calendar days with a tentative completion date of August 15th. Please see the attached sketch for a depiction of the construction area.

To lessen the traffic impact of this work as much as possible, Avon Road will be re-opened with two way traffic from Nagel Road in Avon to Bradley Road in Westlake. The traveling public is encouraged to use this alternate route as a way to avoid the Nagel Road construction zone and detour that will serve as a secondary outlet back onto Nagel Road.

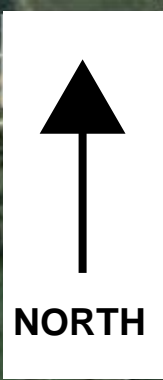

You are urged to observe all traffic barricades, signs, warning lights and temporary signals. These control devices are there for your protection and for the protection of others. Above all, **please caution children to keep a safe distance from all equipment and excavations.** Construction equipment is fascinating to children, but can be very dangerous even while not in operation.

With any construction project, there are inevitably going to be inconveniences in addition to construction noise from the work that is ongoing. We will make every effort to keep these inconveniences to a minimum. **Your patience during this work is greatly appreciated.**

If a special need arises, please call our office number, 440-748-7483, between 8:00AM and 5:00PM or call Mike Farmer with the City of Avon at 440-937-5766.
