Attention Avon Residents & Businesses

Upcoming Chester Road Construction & Road Closure

Avon, OH

On or about May 9, 2016 K.M.U. Trucking & Excavating Inc. will begin a construction project that will serve to widen a portion of Chester Road west of Jaycox Road. The project will involve the widening of Chester Road from its current two lane configuration up to a five lane wide roadway. The project will extend from the eastern end of the current roadway work associated with the Cabela's site development through the Jaycox Road & Chester Road intersection.

In order to facilitate this work Chester Road will be closed to through traffic between Jaycox Road and the Chester Square / Walmart area. Local and emergency access to businesses and properties within the closure area will be maintained at all times. The road closure will begin on May 9th and extend until July 31st. After that time period the roadway will be re-opened to through traffic with at least one lane maintained in each direction. Active construction will still be occurring after August 1st and the path of the through lanes will be subject to variations and traffic controls until the roadway widening is completed in the spring of 2017.

You are urged to observe all traffic barricades, signs, warning lights and temporary signals. These control devices are there for your protection and for the protection of others.

With any construction project, there are inevitably going to be inconveniences in addition to construction noise from the work that is ongoing. We will make every effort to keep these inconveniences to a minimum. **Your patience during this work is greatly appreciated.**

If you have any questions please feel free to contact Avon Street Superintendent Tim Loeser at 440-937-5424 or call Avon Service Director Mike Farmer at 440-937-5766.
